**STRESS & RECEIVING  
RATION**

Performance Stress & Receiving Ration Is designed specifically for cattle that are experiencing high levels of stress from moving and co-mingling at sale barns. This feed is offered in both a pelleted or textured form and can be hand-fed or used in self-feeder.

- All-Natural Protein and effective fiber to support healthy rumen function.
- Includes the following nutritional additives to support both health and performance:
  - Highly effective probiotic added for gut health.
  - Added organic sources of Zinc, Cooper, Manganese, Cobalt and selenium.
  - Deccox Medicated option for control coccidiosis.
- Pelleted ration for improved flowability and to insure consistent intake.
- Textured ration with crack corn, mix pellet and molasses to improve palatability and encourage intake on stress calves.
