

Performance Corn Gluten Pellets

Performance Corn Gluten Pellets is loose corn gluten that has been through a pelleting process. They are the exact same material as loose corn gluten. Corn gluten pellets are 16% protein and 81% TDN. Corn Gluten pellets are an excellent source of energy and protein.

INGREDIENTS

Corn Gluten

Feeding Directions:

For increased rate of gain in pasture cattle, feed continuously at the rate of 3 to 7 lbs per head per day. Feeding rate will depend on forage quality and availability, size and condition of cattle and expected performance
