

Performance Soyhull Pellets

Soyhull Pellets are loose soy hulls that have been through a pelleting process. They are the exact same material as loose soy hulls. Soyhulls are 10% protein, and 50% fiber. Soyhulls pellets are an excellent source of fiber and energy. This feed is also safe for Sheep

INGREDIENTS

Soyhulls

Feeding Directions:

For increased rate of gain in pasture cattle, feed continuously at the rate of 3 to 7 lbs per head per day. Feeding rate will depend on forage quality and availability, size and condition of cattle and expected performance
